Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-8642
Project Name	Import Data Using Transform Maps (Spreadsheet)
Maximum Marks	3 Marks

Define Problem Statements :

"Import Data Using Transform Maps – Spreadsheet" is a process of importing data from a spreadsheet into ServiceNow using Import Sets and Transform Maps. It helps map the spreadsheet fields to the corresponding ServiceNow fields and transfer the data accurately into the required table.

Example:

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	A ServiceNow user importing data from a spreadsheet.	Import spreadsheet data into ServiceNow using Transform Maps.	The data may not be mapped or imported correctly.	Spreadsheet fields may have different formats and incorrect field mappings.	Frustrated and concerned about data accuracy.
