|---|---|
| **Date** | 29 September 2026 |
| **Team ID** | SWTID-2026-8642 |
| **Project Name** | Import Data Using Transform Maps (Spreadsheet) |
| **Maximum Marks** | 1 Mark |

**Project Demo Planning:**

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

| S.No | Demo Section | Description | Duration (mins) | Responsible Member |
|---|---|---|---|---|
| 1 | Project Introduction | Overview of spreadsheet data import challenges and project objectives in ServiceNow. | 2 | Team Member 1 |
| 2 | Staging Table & Import Set Demo | Uploading the excel spreadsheet into ServiceNow and creating the import set staging table. | 3 | Team Member 2 |
| 3 | Transform Map & Mapping Configuration | Demonstrating source-to-target field mapping, Coalesce configuration, and scripts. | 4 | Team Member 3 |
| 4 | Data Transformation Execution | Running the transform map and showing real-time data parsing and transformation. | 3 | Team Member 2 |
| 5 | Verification & Log Review | Verifying imported records in target table and reviewing transform run logs for validation. | 2 | Team Member 3 |
| 6 | Q&A and Conclusion | Summarizing key outcomes and answering technical queries from evaluators. | 2 | All Team Members |

**Demo Flow Summary:**

| Step | Activity | Notes |
|---|---|---|
| 1 | Introduction & Problem Statement | Explain the need for automated spreadsheet data migration into ServiceNow target tables. |
| 2 | Solution Overview | Highlighting how Transform Maps and Import Sets simplify bulk data insertion and updates. |
| 3 | Live Feature Demonstration | Live execution of file import, transform mapping, coalesce duplicate prevention, and record check. |
| 4 | Q&A Session | Addressing questions regarding transform scripts, error handling, and field mapping logic. |
